- ◇ We welcome UNC Carolina Institute for Developmental Disabilities and Monroe Carell Jr. Children’s Hospital at Vanderbilt University to the list of activated sites!
- ◇ Please find our contact info below and schedule your visit today!

## Study Team Spotlight

**Name & Role:** Margaret DeRamus, Clinic Coordinator

**Site:** UNC Carolina Institute for Developmental Disabilities

**What you’d like us to know:**

Margaret DeRamus, MS, CCC-SLP, is a licensed speech language pathologist at the Carolina Institute for Developmental Disabilities (CIDD) and clinical instructor in the Department of Psychiatry in the School of Medicine at the University of North Carolina (UNC) at Chapel Hill. With over 20 years of experience working with individuals with intellectual and developmental disabilities, Margaret participates in several interdisciplinary clinic teams and a variety of research projects, conducting developmental, speech, language, augmentative and alternative communication (AAC), and autism evaluations. In addition, Margaret coordinates both the Angelman syndrome and Dup15q clinics, as well as the Angelman Syndrome Natural History Study at UNC. She also co-facilitates sexual health education (SHE) groups for individuals with developmental disabilities and their caregivers. Margaret’s primary areas of interest include AAC, literacy, social cognition, and promoting accessible and equitable SHE for individuals with IDD.
