THE FOUNDATION FOR ANGELMAN SYNDROME THERAPEUTICS

ABOUT ANGELMAN SYNDROME

Angelman Syndrome (AS) is a severe neurological disorder that affects motor coordination, balance and speech. It causes profound developmental delays and epilepsy. AS affects 1 in 15,000 children, regardless of gender or race. AS has been cured in the laboratory with multiple approaches. Several human clinical trials for the treatment and cure of AS are scheduled to begin within the next 24 months.

ABOUT FAST

The Foundation for Angelman Syndrome Therapeutics (FAST) is a Section 501(c)(3) organization run by an all-volunteer board of directors focused on bringing practical treatments into current medical practice as quickly, safely and efficiently as possible. FAST has funded ground-breaking research into AS and assists both pharmaceutical and biotechnology companies in the research and development of potential treatments.

ABOUT THE FAST SUMMIT

The FAST Summit is the most attended Angelman Syndrome conference in the world with more than 700 parents in physical attendance and tens of thousands more watching globally via live feed. Caregivers to individuals with AS are particularly interested in clinical trial developments, research updates and educational strategies for their loved ones with AS.

ABOUT THE FAST GALA

The FAST Gala is the largest celebrity fundraising event in Chicago with past guests including Colin Farrell, Jai Courtney, Vincent D'Onofrio, Zachary Levi, Richard Marx, Rosie Perez, Retta, Keith Semple, Jesse Lee Soffer, and Wilmer Valderrama. Guests have repeatedly traveled from around the globe to meet their favorite celebrities and enjoy performances by the Shannon Rovers, Trinity School of Dance and 7th Heaven Band. It is a truly magical evening, like no other, with dining, dancing, laughter and life-changing experiences.
