

# Make a Difference

And Have Fun Doing It!

### What is The Angels for Angels Charity Ball?

Angels for Angels is an upbeat, formal event designed to increase awareness and raise funds for a cure for Angelman syndrome, a rare genetic disorder affecting nearly half a million people.

The 1st Annual Angels for Angels Charity Ball was held in 2018 and was a resounding success!

***Over 230 people were in attendance to the sold-out event and we raised over \$133,000.***

ALL of the money raised went directly to FAST and was used to support major initiatives and advancements for Angelman syndrome.

### Who are you Supporting?

The Foundation for Angelman Syndrome Therapeutics (FAST) is the largest, non-governmental funder of Angelman-specific research in the world. 100% of sponsorships and donations go directly to FAST and will be used to support their efforts to bring life-changing treatments for Angelman syndrome to clinical trial within 2 years. Ground-breaking advancements in Angelman syndrome have been made possible by FAST and supporters like you.

### Why Now?

Angelman syndrome has been cured in the laboratory using multiple strategies - drug activation of the paternal gene, protein replacement therapy, gene therapy and biologics. Cognitive and motor delays have been reversed in adult mice with Angelman syndrome, suggesting that human therapeutics can achieve results at any age.

In short, bringing a cure to market is not a matter of “if”, but rather a matter of “when”. Additionally, the U.S. Food and Drug Administration recently granted orphan drug designation to GTX-101 and OV-101 for the treatment of Angelman syndrome.

.....

Your support of Angels for Angels and FAST can  
**accelerate the speed at which a cure is made available**  
to those living with Angelman syndrome.

.....

## Event Details

### *When*

Saturday, October 12, 2019, 7-11 pm

## **FAST**

Founded in 2008, FAST (Foundation for Angelman Syndrome Therapeutics) raises money to fuel cutting-edge research and takes an active role in drug development to treat, and ultimately cure, Angelman syndrome. FAST is a registered nonprofit, tax-exempt charitable organization under Section 501(c)(3) of the Internal Revenue Code.

Donations are tax deductible as allowed by law.

FAST's Employer Identification Number (EIN) is 26-3160079.

### **What is Angelman syndrome?**

Angelman syndrome (AS) is a severe neurological disorder that primarily affects the nervous system. Approximately one in 15,000 people have AS. Characteristic features of this condition include profound delayed development, intellectual disability, and problems with motor coordination and balance. Individuals with AS do not develop functional speech and most affected also have recurring seizures. Disrupted sleep cycles can also be a serious challenge to the individual and caretaker(s). Individuals with AS have a normal life expectancy. They require continuous care and are unable to live independently.
